BRITISH TURN
TO HOOVER
Premier Wants
Conference
Macdonald Will Come to
Washington to Discuss
American Relations
Suggests Joint Navy
World Peace Under
Kellogg Pact

WILL ROGERS
Remarks:
BEVERLY HILLS, June 9. (To the Editor of The Times.) There is an epidemic of towns trying to claim the birth of the Republican party that almost equals in importance our problem here. "Who was the first white child born in Beverly Hills?" All they have to do to find where the Republican party was formed is to find where the first corporation was formed. It was incorporated in Beverly Hills. It was the first corporation to be formed in the United States. It meets in Washington and its sole business is to listen to and veto a minority report submitted by the Democrats. Its slogan is "Stay with us, we can afford to pay more than our competitors."
Yours,
WILL ROGERS.

CURACAO'S
GOVERNOR
ABDUCTED
Raiders Also Kidnap
Dutch Commander; Later
They Get Freed
WILLEMSTAD (Curacao, Dutch West Indies) June 9. (P)—The American steamship Maracibo returned here this evening with the Governor and his family. The Governor had been carried off by an armed body of men, and the Dutch officials were armed in any way and were none the wiser for their sudden trip to sea as prisoners.
The band, said to have been led by Gen. Urbina, descended on the waterfront here suddenly last night, seized the Maracibo and apparently took the officials aboard as hostages. For a time they were in complete control and several police officers were killed and wounded in attempts to suppress them.

Pilot Killed as Motorboats Hit
SAN JOSE, June 9. (P)—Lawrence Hibasco, 27 years of age, of Palo Alto, was killed at Alviso this afternoon when the motorboat he was piloting in a race on the Alviso Slough, was struck broadside by another driven by Walter Speegle of San Jose. Both were participating in the South Bay Yacht Club motorboat racing program.

CHERRIES KILL WOMAN
MONTAUBAN (France) June 9. (Exclusive)—Miss Jeanne Galtie spent the afternoon in a cherry tree and died. An examination showed that she had swallowed 600 cherry pits.

MAIL PLANES GROUNDED
In the hills adjacent to the valley rain and wind was especially heavy. Weather conditions over the Sierra caused the first summer stop of air-mail planes since the lines started. The eastbound planes were held up at Sacramento and westbound planes at Reno. At Sacramento, up to early Sunday morning, a rainfall of nearly half an inch had been recorded.

One Killed as Plane Crashes
ELYRIA (O.) June 9. (P)—George Humeke, 30 years of age, was killed instantly and Richard Clark, 21, was injured probably fatally in an airplane crash at the Elyria Air Service field near here today.

Coast Trains on New Time
CHICAGO, June 9. (P)—Shortened schedules to the Pacific Coast from Chicago were inaugurated by three railroads today with the Santa Fe's Chief and the Northwestern-Union Pacific Overland leaving on their first fifty-eight-hour trips to the West Coast and the Great Northern's Empire Builder making its maiden trip to the Pacific Northwest under a sixty-three-hour schedule.

RAIN RUINS PRESIDENT'S CAMP TRIP
Hoover Returns to Capital After Stormy Night Spent in Tent Lodge
WASHINGTON, June 9. (P)—After a rainy night spent in a temporary tent lodge, President Hoover returned to Washington today from his fishing preserve on the upper Rapidan River in the Blue Ridge Mountains.

Prince of Wales Carries Off Cup in Golf Contest
LONDON, June 9. (P)—Evidently profiting by hints given him recently by Walter Hagen, the Prince of Wales won the Coochibee Hill Golf Club's weekly cup yesterday.

Flyer Killed in Air Crash
FOUGHKEEPSIE (N. Y.) June 9. (P)—Ward Sencindiver, 21 years of age, of Northport, L. I., was killed today and John Miller and Neil Smith of Foughkeepsie were injured in an airplane crash at the municipal airport. Miller was piloting the plane.

STARS OF STAGE IN SUICIDE PACT

Margaret Lawrence Found Dead With Actor

Notes Pinned on Door Tell of Plans to End All

Louis Bennison Other Party in Hotel Tragedy

NEW YORK, June 9. (AP)—Margaret Lawrence, stage star, and Louis Bennison, former stage and screen actor, were found shot to death today in the former's penthouse apartment under circumstances which led the police to believe Bennison killed the actress and then took his own life.

Two notes pinned to the door of the bedroom in which the bodies were found, however, indicated a possibility that the deaths were the result of a suicide pact.

"The sunset has a heart, look for us there," said one of the notes, which was signed, "Tanna."

Other directed the finder of the bodies to "notify Mr. Mussen at the Lamb Club at once." The Mussen referred to is believed to be Bennison Mussen, a writer.

ACTRESS WROTE NOTES

Miss Gertrude Chalmers, a friend of the actress, who found the bodies when she went to the apartment on the roof of an East Fifty-first street apartment hotel to pay a noonday call, said both notes were in Miss Lawrence's handwriting.

Police, who found the bedroom strewn with empty liquor bottles and glasses, were aided in their attempted reconstruction of the tragedy by Miss Chalmers, who knew both the actress and the former actor.

She said Miss Lawrence and Bennison moved into the apartment about two weeks ago. The actress had occupied it previously, she said, but had sublet it, and after her divorce from the late Wallace Edginger, also a stage star, had lived for a time with Miss Chalmers.

THIRD OF ITS ALL

She said Bennison, who police declare was married and had a daughter in California, seemed unhappy. Last Wednesday, when she was visiting them, Miss Chalmers said, Bennison produced the same revolver which was found in the apartment today, and cried:

"I'm going to end this thing with this. I'm tired of it all."

At that time he was persuaded to

Stage Favorites in Double Tragedy

Margaret Lawrence and Louis Bennison

put the revolver away. Miss Chalmers said she called at the penthouse apartment last night and was met at the door by Bennison, who appeared to have been drinking.

"Mrs. Edginger doesn't want to see you," Miss Chalmers quoted him as saying. She told police that she had an appointment with Miss Lawrence for today. When she rang and knocked without getting an answer, she entered by means of a key the actress had given her.

The body of Miss Lawrence, clad in a night gown, lay in one of the twin beds, while that of Bennison was seated on the floor, leaning against the bed. Each had been shot in the left breast and a .38 caliber revolver lay near at hand.

SUSPENDED BY EQUITY

Miss Lawrence, who was 39 years of age, last appeared on Broadway in "Possession," withdrawing from the cast last October. Edgar Selwyn, the producer, a short time later filed charges against her with Actors Equity and she was suspended.

Born August 2, 1895, she made her stage debut in "Her Son" in Chicago in 1915. Other productions in which she appeared were "Overnight," "Baby Mine," "Tea for Three," "Wedding Bells," "Transatlantic," "The Lawful Lovers," and "The Behavior of Mrs. Crandall."

Her first husband was Orson Munn, New York attorney. They had two children.

Bennison was about 30 years of age, and last appeared on Broadway in "Rogues." He was a member of the Lamb Club and was in Hollywood for some time. His brother, Andrew, was said to be in Hollywood.

Miss Lawrence's mother in Germantown, Pa., was notified and the bodies were removed to the morgue.

PRINCIPALS IN TRAGEDY

WERE WELL KNOWN HERE

Both Louis Bennison and Margaret Lawrence were well known in

theatrical circles here some few years past.

Bennison, a native of California, played his first principal roles with the Horocco Company here prior to his New York debut, where he first starred in the farce, "Johnny Get Your Gun."

He and Mrs. Bennison returned to Los Angeles in 1924, primarily, according to Mrs. Bennison, to enter their daughter at the University of California at Berkeley that year.

In "The Bride of the Lamb," which opened here in October of that year, Bennison starred in the role of a clergyman. Later, when Dustin Farnum became suddenly ill and was unable to continue in the cast of "The Heaven Tappers," Bennison was signed by Edwin Carver to assume Dustin's leading part.

An interview given out by Bennison's wife on his return to California in 1924, she stated that he had been "happily married for more than twenty years."

Bennison has a brother here, Andrew B. Bennison, a scenario writer. He and Mrs. Bennison were married in 1924, after the death of his first wife, according to Mrs. Bennison, to enter their daughter at the University of California at Berkeley that year.

TALLMAN CLEW FOUND ON BOAT

Cantaloupe Rinds Indicate His Presence on Ship

Lower Holds Emptied in Hunt for Suspect

Empty Beer Bottles Also Unearthed on Vessel

BY FLOYD J. HEALEY

"Times" Staff Correspondent

PORTLAND (Or.) June 9. (Exclusive)—Lower holds of the Admiral Benson, both forward and aft, were emptied of their varied cargo tonight without revealing the hiding-place of William Loren Tallman, will of the wife suspect in the Virginia Patty murder at Los Angeles.

The aft hold, however, yielded traces of human occupancy which strengthened the previously held belief that Tallman got off the ship when he disappeared so mysteriously in San Francisco harbor.

Late this afternoon a steward picked from the floor three cantaloupe rinds. They appeared to have been left behind by someone who had been eating them there. Only cantaloupe is to be drawn to the suspect was forced to extreme measures for food since the hatches were sealed en route north. The situation, in the narrow degrees as it pointed to Tallman's presence, pointed also to the certainty of a confession.

Discovery of the cantaloupe rinds was preceded by the discovery of three near-beer bottles which had been emptied and returned to their cases.

ARTICLES EXAMINED

A last inspection of debarking passengers, some fifty in number, was made when the ship tied up at the Admiral Line pier at 7 a. m. A squad of Portland detectives was on hand to assist Capt. Martin A. Bohat of the Admiral Benson. Detective Lieutenant Frank Condon of Los Angeles and Detective Chief Michael Desmond of San Francisco.

Almost before the last passenger had gone shoreward, the winches were put to work in unloading the cargo. Each article was examined, not only as a prospective hiding place, but in instances in which the human being, to determine if a human had broken into it in an effort to obtain food since the hatches were sealed.

Tonight the Admiral Benson backed away from its own pier, taking what was left of its cargo to Pier No. 2 for the final unloading.

The care with which the items were checked off by the watching detectives will continue well into the night.

The cargo is cleared it is the plan to go over the ship once again from stem to stern and bridge to bridge. Looking results before to morning it is the plan to spend the entire day at this task so that not even remotely possible as a hiding place will be overlooked.

The ship's last chance for escape, if he was aboard at the time, was last night. The Columbia River was as black as ink, with the shore on either side within the limits of a resounding storm, despite the uptide in the lower reaches and the down current up the stream. A lighter followed the Admiral Benson off Astoria in the morning, when the ship swung off into the Willamette for the last leg of the run to Portland, the police patrol boat swung in to assist.

WIDE LEAP NECESSARY

Despite all of these precautions and the anxious playing upon the Admiral Benson's wake, it was obvious to the seekers that Tallman would not have had much difficulty in escaping. His greatest danger despite the alternative would have been a wide leap.

Not have been a great hindrance for colliding driftwood kept exploding miniature fountains all night.

Capt. Bohat effectively disposed today of the Admiral Benson's wake, it was obvious to the seekers that Tallman would not have had much difficulty in escaping. His greatest danger despite the alternative would have been a wide leap.

NOTABLE WOMAN'S USEFUL LIFE ENDS

Mother of Notorious Harry Succumbs to Pneumonia

Philanthropic Life Contrast to Scion's Escapades

Son and Daughter Present During Last Hours

PITTSBURGH, June 9. (AP)—Mrs. Mary Copley Thaw, 80 years of age, widow of William Thaw, Pittsburgh capitalist and mother of Harry K. Thaw, died at her home here today following a brief illness with pneumonia. Mrs. Thaw was widely known for her philanthropy.

Hope that Mrs. Thaw might rally was virtually abandoned last night by members of the family and during her last hours it became necessary to administer oxygen. She grew gradually weaker and died shortly before 8 o'clock this morning.

THAW AT BEDSIDE

Harry K. Thaw and the Countess Margaret Carnegie De Perigny, a daughter, were at their mother's bed, the latter having made a hurried trip from her home in Paris. Other children are Mrs. Alice Thaw Whitney and Joseph Copley Thaw.

Mrs. Thaw had been on a steamship two days, bound for England, when her son shot the noted architect, Stanford White. All the news of the playing was carefully kept from her, although almost everyone else on the boat knew about it, until she was told by her son-in-law, the Earl of Yarmouth, upon her arrival at his estate, July 3. Three days later she left Southampton for New York.

During her son's sensational trial she was in the court-room every day with other members of her family, and showed her loyalty to him through subsequent difficulties and confinement in the State Hospital for the Criminal Insane at Mattawan. Hundreds of thousands of dollars of the Thaw fortune were used in the defense.

SHADOW OF DISGRACE

Broken by the notoriety of the case, Mrs. Thaw lived a very retired life in Pittsburgh in her late years. Early in 1925 while attending services in the Third Presbyterian Church of Pittsburgh she slipped and fell, fracturing her hip, and since then she had been confined to her room in her Beechwood-Bonair home entirely cut off from the outside world with the exception of visits by her physicians, her children, and her spiritual adviser.

She did not even read mail or the cards of those who sent flowers to her, according to those very close to her.

Born in Armstrong county, Pa., in 1853, Mary Copley's interest in the welfare of her fellow-men was marked by a romance which led to her marriage with William Thaw in 1871.

ADDITIONED JEWEL

Intense upon helping the Union soldiers in the Civil War, the young girl auctioned off her most prized possession—a diamond ring—the funds derived therefrom going to the Army Sanitary Commission.

Mr. Thaw, wealthy patron of art, science and education, was the highest bidder. He purchased the ring and won the friendship of Mary Copley, and within a few years they married.

Her interest in philanthropy began with marriage and after his death in 1890 she became immersed in her chosen work until her good deeds had reached into distant fields.

She assisted in establishing a mission at Point Barrow, Alaska, and provided the means for construction of a memorial chapel among the lepers of Guam. In the United States and in her own home community Mrs. Thaw's charitable activities embraced a wide field, including support of schools for the white folks of the mountain districts, the negroes of the South, and the Indians of the Southwest.

Shortly after her husband's death, Mrs. Thaw founded a memory fellowship in scientific research at Harvard and Princeton. She was one of the founders of the Pittsburgh Association for the Improvement of the Poor and was deeply interested in foreign missions.

FACT HINTED SOUGHT

There were indications that certain groups of independent operators are planning to enlist the aid of representatives of the governors of western States in the fight to have the conference go on record in favor of a tariff on oil. In turn the independents will, they said, assist the governors to eliminate the Hoover conservation policy, which is designed to curb production on government land, most of which is in the West.

In answer to a charge by officials of the independent operators' associations that the proposed pact is designed to eliminate the small operator and that "the cards are stacked against the little fellow before the conference convenes," E. R. Rochester, secretary of the Federal Oil Conservation Board, replied that "such talk is rubbish."

The conference was called by the President to go to all phases of the oil overproduction. Mr. Rochester declared, "This conference will do just that, and any other charges that it will not are untrue."

LABOR CHIEF WANTS TARIFF PLACED ON OIL

INDIANAPOLIS, June 9. (Exclusive)—John L. Lewis, president of the United Mine Workers of America, has sent a letter to all members of the United States Senate urging Congress to place a tariff on foreign-produced oil.

The free importation of cheap oil from foreign countries into the United States has had a depressing effect upon American produced coal," he said. "There is no question but that consumption of many millions of tons of coal have been displaced by the use of oil produced in the United States. This, of itself, has done vast injury to the coal industry." To permit the continued free entry of many more millions of barrels of foreign oil simply means still further shrinkage in the consumption of American coal.

JURY IN TEXAS WOMAN DEATH CASE DISMISSED

AMARILLO (Tex.) June 9. (AP)—Hopelessly deadlocked after approximately forty-three hours of deliberation the jury in the trial of Mrs. Levi Stahlman of Amarillo for the slaying of Mrs. Grace Morrison of Plainview in front of a hotel here on May 13, last, was discharged. The jury had seven to five for conviction on all thirty ballots taken. It is said Mrs. Stahlman was released under a renewal of her bond of \$15,000.

DEATH COMES TO MRS. THAW

Mother of Notorious Harry Succumbs to Pneumonia

Philanthropic Life Contrast to Scion's Escapades

Son and Daughter Present During Last Hours

PITTSBURGH, June 9. (AP)—Mrs. Mary Copley Thaw, 80 years of age, widow of William Thaw, Pittsburgh capitalist and mother of Harry K. Thaw, died at her home here today following a brief illness with pneumonia. Mrs. Thaw was widely known for her philanthropy.

Hope that Mrs. Thaw might rally was virtually abandoned last night by members of the family and during her last hours it became necessary to administer oxygen. She grew gradually weaker and died shortly before 8 o'clock this morning.

THAW AT BEDSIDE

Harry K. Thaw and the Countess Margaret Carnegie De Perigny, a daughter, were at their mother's bed, the latter having made a hurried trip from her home in Paris. Other children are Mrs. Alice Thaw Whitney and Joseph Copley Thaw.

Mrs. Thaw had been on a steamship two days, bound for England, when her son shot the noted architect, Stanford White. All the news of the playing was carefully kept from her, although almost everyone else on the boat knew about it, until she was told by her son-in-law, the Earl of Yarmouth, upon her arrival at his estate, July 3. Three days later she left Southampton for New York.

During her son's sensational trial she was in the court-room every day with other members of her family, and showed her loyalty to him through subsequent difficulties and confinement in the State Hospital for the Criminal Insane at Mattawan. Hundreds of thousands of dollars of the Thaw fortune were used in the defense.

SHADOW OF DISGRACE

Broken by the notoriety of the case, Mrs. Thaw lived a very retired life in Pittsburgh in her late years. Early in 1925 while attending services in the Third Presbyterian Church of Pittsburgh she slipped and fell, fracturing her hip, and since then she had been confined to her room in her Beechwood-Bonair home entirely cut off from the outside world with the exception of visits by her physicians, her children, and her spiritual adviser.

She did not even read mail or the cards of those who sent flowers to her, according to those very close to her.

Born in Armstrong county, Pa., in 1853, Mary Copley's interest in the welfare of her fellow-men was marked by a romance which led to her marriage with William Thaw in 1871.

ADDITIONED JEWEL

Intense upon helping the Union soldiers in the Civil War, the young girl auctioned off her most prized possession—a diamond ring—the funds derived therefrom going to the Army Sanitary Commission.

Mr. Thaw, wealthy patron of art, science and education, was the highest bidder. He purchased the ring and won the friendship of Mary Copley, and within a few years they married.

Her interest in philanthropy began with marriage and after his death in 1890 she became immersed in her chosen work until her good deeds had reached into distant fields.

She assisted in establishing a mission at Point Barrow, Alaska, and provided the means for construction of a memorial chapel among the lepers of Guam. In the United States and in her own home community Mrs. Thaw's charitable activities embraced a wide field, including support of schools for the white folks of the mountain districts, the negroes of the South, and the Indians of the Southwest.

Shortly after her husband's death, Mrs. Thaw founded a memory fellowship in scientific research at Harvard and Princeton. She was one of the founders of the Pittsburgh Association for the Improvement of the Poor and was deeply interested in foreign missions.

**LATIN AMERICAN
AMITY GIFT AIM**

Guggenheim Provides for
Exchange Fellowships

Foundation to Administer
Fund of \$1,000,000

Closer Bond Between Two
Continents Desired

NEW YORK, June 9. (Exclusive)—A gift of \$1,000,000 to establish a system of exchange fellowships between the United States and Latin America made by Mr. and Mrs. Simon Guggenheim was announced today through the John Simon Guggenheim Memorial Foundation by Henry Allen Moss, foundation secretary. The first of the Latin American fellowships will be granted in Mexico in 1930.

In making the gift, which is in addition to the \$2,500,000 capital fund of the foundation already established, Mr. Guggenheim makes it clear that he is looking toward more intimate understanding between the republics of North and South America through the closer relationship of the scholars and professional men in those countries.

TERMS OF DONATION

In a letter accompanying the announcement Mr. Guggenheim says that it is with no "nationalist or propagandist interest that we desire to make available such assistance. Men and women devoted to pushing forward the boundaries of knowledge and to the creation of beauty, reared with the impress of the same republican institutions and principles of progress, must necessarily approach nearer and nearer together in scientific and artistic respect for each others' attainments and culture."

Under the terms of the donation the exchange fellowships shall be open to citizens of the United States, of the Argentine republic, Bolivia, Brazil, Chile, Mexico, Peru and Uruguay and will be granted for independent research and also for training in the various professions, including engineering and teaching. The stipend will be normally \$2500, for twelve months, plus a travel allowance proportionate with the distance which the fellows have to travel. Fellows from Latin America will not be required to have a knowledge of English, but in such cases a special allowance for study of the language will be made. Fellows will not be restricted in their choice of a university. Plans for the fellowships have been formulated with the advice of a large number of interested scholars and public men of both continents.

MUTUAL BENEFIT

The announcement is accompanied with the statement that the action is in "harmony with the resolution passed by the international conference of American States, held in Havana in January, 1928, which emphasized the importance of encouraging the exchange of professors and students between the different universities of the two Americas, and promoting the study of each others' language, history, government, geography and literature. In order to make the relationship of mutual benefit to the two continents, the fellowships are set as an exchange, rather than as a one-way system."

OGDEN HILES PASSES

SALT LAKE CITY, June 9. (P)—Ogden Hiles, 83 years of age, former district judge and well-known old-time political leader and mining man in Utah, died here last night.

FLAMING AGE FLARES UP

Furious Spouse, 56, Asserted Lothario, 65, Wife, 40, Characters in Bay City Triangle

SAN FRANCISCO, June 9. (Exclusive)—Neil Mulcahy, 65-year-old bricklayer, was taken to the San Francisco Hospital today badly cut and mutilated; Arthur Lawrence, 54, chauffeur, was taken to the City Prison charged with mayhem, and Mrs. Arthur Lawrence, his wife, 40, the mother of five children, was sent home to get some clothing.

Mulcahy in the hospital told police that Lawrence had knocked him out with a club and then slashed him with a penknife. Lawrence told the police he had merely tried to persuade his wife to go home after finding her dressless and stockless with Mulcahy.

HUSBAND'S LIKE THAT

Mrs. Lawrence assured the police with gestures that she had merely gone for a little automobile ride with Mulcahy and had had a few drinks and that everything had been hot-hoty till her husband arrived.

"All I know," added Policeman Murphy, "is what I heard and saw. About midnight Officer McGraw and myself heard a woman screaming in a flat. We went in and found this man Lawrence arguing with his wife. She hadn't many clothes on and he was mad. He said she had been drinking with a friend of his. Mulcahy. We went into the flat and found Mulcahy lying on a bed. There was blood all over Mulcahy and all over the bed and Mulcahy was lying very still. We thought he was dead."

MATERNAL DUTIES

They took Mulcahy to the Park Emergency Hospital where they found that the user of the knife had made good job of it. Later Mulcahy was removed to the San Francisco Hospital. He accused Lawrence of the attack and named Mrs. Lawrence as the sole witness. Lawrence was placed in a cell and his wife in another, but early today Mrs. Lawrence was allowed to go to her home to dress and attend her five children, Ida, 14; Arthur, 13; Alfred, 10; Robert, 7, and Martha, 5 years of age.

Endless are the triangles that call in the police but no blotter for a long time has told the story of a triangle where the angles total 181 years in age. Hence, Lawrence, as the middle-aged defender of his honor, is a center of curiosity at the City Prison and Mulcahy as elderly Lothario is no less a center of curiosity at the hospital.

Naming of Pennsylvania
Man to Judgeship Calms
Rumors of Friction

WASHINGTON, June 9. (P)—The nomination by President Hoover of Albert L. Watson, of Beranton, for judge in the Middle District of Pennsylvania, halted acceleration of reports that discord was brewing between the administration and Republican members of Congress over patronage matters.

Various Republicans had been expressing alarm privately concerning what they said was a proposed policy by Atty.-Gen. Mitchell to pursue independent action in the selection of judges and district attorneys. These appointments generally are considered by the Senators to be a matter for their discretion and they have had their way in many administrations.

Watson was backed by Senator Reed of Pennsylvania, a solidly Republican State. In the usual course of events the Senator a month ago sent to the Attorney-General his recommendation of Watson for the judgeship.

Time went along. There were indications that Mr. Mitchell did not strongly favor the Watson recommendation and that he was making independent inquiry into his qualifications.

**A New Home
Treatment for
Gland Trouble**

Medical authorities agree that 85 per cent of all men past middle age (many much younger) are afflicted with a disorder of the prostate gland. Aches in feet, legs and back, frequent nightly risings, sciotic pains are some of the signs—and now a member of the American Association for the Advancement of Science has written a remarkably interesting Free Book that tells of other symptoms and just what they mean. No longer should a man approaching or past the prime of life be content to regard these pains and conditions as inevitable signs of approaching age. Already more than 50,000 men have used the amazing method described in this book to restore their health and vigor—and to restore the prostate gland to its proper functioning. Arrange immediately for this book. Call in person if possible, otherwise mail your request to The Electro Thermal Company, Dept. B-149, 263 Van Nuys Bldg., Los Angeles—the concern that is distributing this book for the author—it will be sent to you absolutely free, without obligation. Simply send name and address. But don't delay, for the edition of this book is limited.

**Censor Makes
Morley Laugh**

"The playlet," Mr. Morley said, "has been acted by numerous Little Theater groups in America without a single objection to the lines. This objection on the part of the Lord Chamberlain really gives me a big laugh. I'll have to sit down and read the play again."

Re-Perfected Limousine

WE frequently hear motorists express a preference for a closed car with separate compartments.

Our own shops have just finished Re-Perfected an enclosed drive, Pierce-Arrow limousine of the "80" series. A glass partition back of the front seat may be raised to form separate compartments. The advantages are obvious.

Any Re-Perfected Pierce-Arrow is guaranteed and serviced by us in the same manner and for the same period as applies on a new car.

This particular Re-Perfected Pierce-Arrow was equipped with four new tires quite recently. It has been refinished and the appearance is very attractive. As usual, you may count on excellent performance.

Firms who use models of this type for business purposes will doubtless be interested in this limousine.

The price is only \$4200

Terms and exchanges may be arranged.

STRIKE DEPUTY SHOT IN BATTLE

Round-up Over Killing;
Police Chief Brings Clash

Textile Workers' Organizer
Kept in Secret Jail

Mill Village Fires Being
Traced by Officers

GASTONIA (N. C.) June 9. (AP)—George Moore, Gaston county deputy sheriff, was shot late today during a chase after a Loran Mill striker wanted in connection with the slaying of O. F. Aderholt, Gaston county sheriff, on Friday.

Fred Edwin Best, southern organizer for the National Textile Workers' Union, is in jail somewhere in North Carolina today under a warrant charging complicity in the murder of Aderholt.

Funeral services were conducted late today for Chief Aderholt, who was wounded fatally by guards at a Loran Mill strike settlement Friday night. Best and sixty other strikers and strike sympathizers were arrested.

Two fires which broke out in the mill village yesterday were under police investigation today. One was at the home of a woman who was reported to have been supplying food for workers who remained on duty at the mill.

Now... No Extra Fare

on the famous

"Golden State Limited"

All extra fare train advantages... Los Angeles to the East... at no extra fare

THE same fast 61 1/2-hour schedule to Chicago will be maintained without change. The equipment and service which have already made the Golden State Limited famous as the utmost in travel luxury will be further improved.

For points east of Chicago, Kansas City or St. Louis, no train—extra fare or otherwise—offers better connections. The schedule, leaving Friday, for example:

Lv. Los Angeles 6:00 p. m. Friday
Ar. Kansas City 8:00 p. m. Sunday
Ar. Chicago 9:15 a. m. Monday
Ar. St. Louis 7:30 a. m. Monday

Going on to New York, for example:
Lv. Chicago 11:40 a. m. Monday
Ar. New York 8:40 a. m. Tuesday

Only 81 1/2 travel hours to New York. And with no extra fare to Chicago, you save \$20.00 on the round trip.

The Golden State Limited has rooms en suite, if desired; club car, observation car, sleeping cars, barber, valet, ladies' maid, shower baths, library—and perfect dining service.

More Thrill Pullmans via Southern Pacific

Southern Pacific takes you to more eastern destinations without change of cars or trains than any other railroad. For instance, you may ride from Los Angeles straight through to Atlanta, Cheyenne, Chicago, Dallas, Denver, Des Moines, Fort Worth, Houston, Kansas City, El Paso, Little Rock, Memphis, Minneapolis, New Orleans, Oklahoma City, Omaha, St. Louis, St. Paul, San Antonio, Seattle, Washington, D.C., and dozens of other points both on and off Southern Pacific's Four Great Routes, without changing cars.

The MAN FROM INDIANA Said to his FRIEND FROM IDAHO

"How's this for a summer vacation? A week in Zion-Bryce Grand Canyon National Park, then on through Salt Lake City, Denver, Rocky Mountain National Park and Chicago, to Indianapolis for the big class reunion. The rest of the time... except for little business trips to Louisville and Cincinnati... we'll spend visiting friends and relatives in the old Hoosier State."

"I can suggest but one improvement," said the man from Idaho. "Don't overlook Yellowstone en route."

Low FARES back EAST

Reduced round trip summer fares to the East NOW at a very substantial saving. Final return limit Oct. 31—liberal support privileges... choice of return routes. Inexpensive side trips to Yellowstone and Zion-Bryce Grand Canyon National Parks. Scenic Salt Lake City, Denver and Rocky Mountain National Park may be visited without extra railroad fare.

Tobacco Chain Stores Merge
United Corporation Absorbs
Three Huge Concerns

United File Link of Cigar and Drug Business

Daily and Five-and-Ten Shops Also Included

NEW YORK, June 9. (P)—The United Corporation today announced plans to acquire the United Stores Corporation, a merger which would create the largest chain of tobacco stores in the United States.

The United Stores Corporation, which operates 1,200 stores in 15 states, is being acquired by the United Corporation, which operates 1,500 stores in 10 states.

The merger would create a chain of 2,700 stores, which would be able to compete with the large department stores in the tobacco and drug business.

BEAUTIES FAINT IN REVUE

Galveston Sun and Fatigue Too Much for Entrants In World Bathing-Girl Parade

GALVESTON, June 9. (P)—Excited by the adulation of thousands in a two-mile parade which required more than an hour, and fatigued by an unaccustomed sun, several beauties fainted today at the close of the bathing suit revue, an event of the "International Pageant of Pulchritude" here.

All were revived quickly and suffered no ill effects other than being blistered. A few of the beauties did not carry umbrellas and the sun's rays beat down mercilessly to send the mercury up to 94 at the start of the parade, the highest temperature registered this year.

Miss Rumania, Magda Demetrescu, was perhaps the most seriously affected of those who swooned after the end of the parade. She was not restored to consciousness for about half an hour and concern over her condition was expressed for a time. Miss Brazil, Olga Baranovskaya, and Miss Holland, Johanna Koopmann, applied first aid and gave her stimulants.

Miss Austria, Lale Goldberger, was in a faint for a few minutes. She, Miss Demetrescu and Miss Philadelphia, Ethel Mae Moody, remained in their beds for several hours after the parade was ended. Others reported to have been affected by the heat were Miss Fort Worth, Lillian Haas; Miss Tennessee, Willie Taylor; Miss Maine, Ethel Mae Stoddard; and Miss Pennsylvania, Inez Everly.

Thousands sat in the mile-long grand stand. The forty-four beauties were hauled about a mile before they came abreast of the stands. The crowd was estimated at about 50,000.

Miss United States will be selected tomorrow night, and Miss Universe Tuesday night. Today's event was not competitive.

MINE BLAST SNUFFS OUT FOUR LIVES

Sixty-one Men Escape in West Virginia Explosion; Bodies Recovered

MULLINE (W. Va.) June 9. (P)—Four men were killed today in a "blow" explosion in the Glen Rogers mine of the Raleigh-Wyoming Mining Company at Glen Rogers near here. Sixty-one miners escaped.

The bodies of three electricians and the factory representative of a mine equipment concern were recovered five hours after the blast occurred. The bodies were found near a loading machine they had been repairing.

The dead are Louis Frey, Springfield, Ill.; R. S. Stauder, Kelleyville, W. Va.; Charles Perdue, Glen Rogers, and Benjamin Morris, West Frankfort, Pa. The latter is representative of the Joy Manufacturing Company of Franklin, Pa.

The bodies were badly burned.

Business Man Pens Will and Leaps to Death

NEW YORK, June 9. (P)—Edward C. Little, 45 years of age, president of the Laclede-Christy Clay Products Company of New York, was killed last night in a plunge from a window on the eleventh floor of the Montclair Hotel.

Police, who listed his death as suicide, said that he wrote his will on the cover of a magazine and then jumped through the closed window, shattering the glass.

The terms of his will were not revealed.

Three Injured in Plane Crash

PHOENIX, June 9. (P)—A woman airplane passenger probably was fatally injured and two men were seriously hurt in the crash of their plane shortly after dark tonight. The crash, striking power wires as it took off, crashed on a street bordering the field. It caught fire and burned after the injured passengers had been removed.

Miss Zella Robbins is not expected to survive a fractured skull and possible internal injuries. William Karnowski was cut about the head and possibly internally injured. Paul G. O'Connell, pilot of the plane, suffered a broken arm, fractured leg, and other body cuts. All three live in Phoenix.

Fear Noblemen Lost on Desert

KHARTUM (Anglo-Egyptian Sudan) June 9. (P)—Prince Ferdinand Andreas of Liechtenstein and Count de Almasy of Hungary are believed lost in the desert between Wady-Halfa and Cairo.

They left the former town, near the second cataract of the Nile on the 3rd inst., in two automobiles with native guides and a mechanic. They had only 100 gallons of gasoline and have not been reported since.

Army Accepts Bombing Plane

ROOSEVELT FIELD (N. Y.) June 9. (P)—A huge Curtiss condor bombing plane, capable of carrying more than a ton of explosives, was officially accepted for the Army Air Service by F. Trubee Davison, Assistant Secretary of War for Aviation.

Davison flew from Washington in his own plane and stepping into the bomber with four army officers put it through maneuvers himself.

The craft has a wing spread of ninety feet, is forty-seven feet long and sixteen feet high. Power is furnished by two water-cooled motors.

LONDON SEEKING HOOVER PARLEY

Canada Probably Will be Invited to Meeting

President Understood to Be In Favor of Move

Great Importance Attached to American Relations

(Continued from First Page)

to Geneva at the time of the next assembly meeting.

"We regard our relations with the League as only of the most vital importance to our policy, which will be conducted in the spirit of the League," he said. "We will approach our problems not from the standpoint of national strategy but from the standpoint of international co-operation."

"That spirit will inspire our policy both toward states which are members of the League and those which, like the United States and Russia, are outside it. The Labor party policy toward the Soviet Union is widely known and will be put into operation with all expedition. I am personally anxious to see the closest possible relations between the British and Russian peoples and no dislike of the form of government existing in Russia ought to be a hindrance to the achievement of friendly working relations."

Mr. Henderson withheld any opinion on the reparations report signed on Friday at Paris until the Cabinet has studied it and ascertained the opinions of other nations concerned. He declared himself anxious to see all foreign troops withdrawn from the Rhineland and said he would consider carefully the best means of achieving this.

Questions of disarmament and arbitration would also be carefully considered and the well-known Laborite objectives concerning them carried out to the best of his abilities.

OBSERVER ALSO CARRIES EDITORIAL

LONDON, June 9. (Exclusive)—A hint that the British Prime Minister, Mr. MacDonald, may visit Washington to confer with President Hoover, is contained in an editorial in today's Observer. The editorial points a vision of the United States, England and Canada joining forces and taking on the job of enforcing the Kellogg pact against war with the combined strength of the English-speaking race.

James L. Garvin, editor of the Observer, is frequently behind the scenes, perhaps it is just throwing out a suggestion. However, there is reason for believing that Mr. MacDonald would welcome an invitation from President Hoover to talk over their various joint problems in Washington. Certainly, the Observer's editorial offers the most possible suggestion that the United States should extend such an invitation.

URGES JOINT NAVIES

The editor calls for the extension of the defended border between the United States and Canada to the sea—that is, a policy by which the United States and England cease to build navies as a defense against attack by other powers, preserving their forces for joint action to make the Kellogg pact a binding contract. This is called possible since no nation or combination of nations would be able to stand against the united power of the United States and Great Britain. The editorial is headed "Hoover and Hope."

What follows here vitally concerns every thinking reader and is written for more than ordinary reasons, the editorial says. The way to peace is the way to all good for all nations. The longer war around is the shorter way home. That route, in the first place, is not by way of Geneva but by way of Washington.

"The question of Anglo-American relations is of paramount importance to the world because until it is settled, general peace is impossible. The reality and finality of the Kellogg pact are the fundamental questions."

"As between the American republic and British democracies, the requirements are two. The first is that President Hoover's policy of drastic reduction of naval armaments will be implemented on both sides as a decisive guarantee of good faith. The second is a frank and fair understanding about future of sea power."

"Diplomacy has broken down in questions like these because the nature of the issues does not suit the ordinary mechanism of diplomacy. The conventional methods must be short circuited."

"A week's talk is worth a year's correspondence. Nor can wisdom and adroitness together put down on paper, however 'private and confidential' what a personal talk can express."

WASHINGTON APPROVES IDEA OF MACDONALD VISIT

WASHINGTON, June 9. (P)—Reports from London that Prime Minister MacDonald is to seek a personal conference with President Hoover on Anglo-American relations were received in Washington tonight as a welcome surprise but with special approval, particularly from Senator Borah, chairman of the Foreign Relations Committee.

Although no comment was forthcoming from the White House upon the report, it was assumed that Mr. Hoover would welcome an opportunity to discuss international relations with the English Premier.

The Chief Executive is particularly interested in that phase of Anglo-American affairs dealing with disarmament and the reduction of existing armaments would be affected. It is believed, therefore, that he would look favorably upon a meeting with Mr. MacDonald as promoting some progress in this direction.

Asserting that the great problem in the world is lifting the burden of armaments from the backs of men, Senator Borah said, "close co-operation between Mr. MacDonald and President Hoover would give exceptional assurance that progress would be made."

"ROXY" FOR BERLIN

BERLIN, June 9. (Exclusive)—A "Roxy" palace, to be built in Prussia, one of the cities making up Greater Berlin. It will contain a cinema theater, along American lines, with organ, and also offices and a restaurant.

ONE PESO EACH, BANDITS' TOLL

Small Tribute Exactied by Mexican Band Halting Motor Cars and Buses

MEXICO CITY, June 9. (P)—Twenty men last night stopped fifteen automobiles and a motor bus about thirty miles from the city, or the road to Puebla, and demanded one peso (about 50 cents) from each of the seventy-five passengers, who were not forced to leave the cars, were so frightened that they gave the bandits all the pesos they had.

It is said that no Americans were among the bandits' victims.

MERCHANT SHOT DOWN AT BORDER

Rum Patrolman Kills Man Driving With His Family; New Officer Takes Blame

INTERNATIONAL FALLS (Minn.) June 9. (P)—Henry Virkula, 41 years of age, Big Falls (Minn.) merchant, was shot and killed while driving home in an automobile with his wife and two children near here last night when he failed to stop at the command of border patrolmen assigned to liquor-smuggling duty.

Country police who launched an investigation, said there was no evidence of liquor in Virkula's automobile. Two empty bottles were found, but proved to have been medicine containers, police said.

Virkula's widow declared her husband was shot before he had an opportunity to stop his automobile. She said the machine traveled little more than ten feet after the command was given, when a fusillade of bullets penetrated the car.

E. J. White, appointed to the border patrol force a few months ago, admitted firing the shots which killed Virkula.

OUTLOOK FOR SUGAR NOT SWEET

Expert Says Crisis Sure as Consumption Shrinks and Surplus Grows

SURABAYA (Java) June 9. (Exclusive)—Vice-President Waldron of the Hawaiian Sugar Planters' Association, who is attending the world sugar congress here, today characterized the economic situation in the sugar industry as alarming.

Sugar consumption is decreasing and the world surplus is already so great that a crisis is inevitable, he said, despite the fact that the United States is seeking means of stimulating consumption.

Restriction of production will not help the situation, according to Mr. Waldron, who added that the increased consumption of China is unimportant because the poverty of the people prevents an increase sufficient to help the sugar industry.

McBride Notes One Weakness in Liquor Situation

WASHINGTON, June 9. (P)—F. Scott McBride, general superintendent of the Anti-Saloon League, declared today that every major factor in the prohibition situation, "with one possible exception," is more favorable now than for years past.

He named the "enormous agitation against the law in a section of the metropolitan press" as the only unfavorable factor, and discounted its efficacy.

Officials Face Death Threats

SACRAMENTO, June 9. (P)—The underworld friends of five convicted sentences to hang in August for participation in the murder of a woman at the State Prison Thanksgiving Day, 1927, have threatened the lives of Warden Court Smith and Dist. Atty. McAllister of Sacramento county, it was learned here tonight.

Both officials admitted receiving threats of death unless they intervene to prevent the hanging of the five men.

By-Election Won by Government

DUBLIN, June 9. (P)—A government victory was scored in a by-election in Sligo and Leitrim when Gen. Sean McEoin was returned with 28,598 votes against 24,821 polled by Eamon Doherty, the Republican candidate. The government regarded the election as a test of confidence in connection with the question of payment or nonpayment of land purchase annuities to the British government.

SCHOOL OF COLONIAL DAYS TO BE CLOSED

EASTON (Pa.) June 9. (P)—Nasareth Hall Military Academy at Nasareth, whose history parallels that of the Moravian Church in America, will close its doors Wednesday. The school was founded in 1743. Former Atty. Wickham and George E. Cortelyou, former Postmaster-General and former Secretary of the Treasury of the United States, are graduates of the school. Lack of interest is assigned as the reason for the closing.

**RUSSIAN GIRL
WINS HONORS**

Learns Language, Completes
School in Five Years

Expects to Enter University
in Fall

Has Qualified Herself for
Citizenship

ONTARIO, June 9.—Five years ago when Mascha Dyck left Russia for the United States of America, she could not speak a word of English.

This week she graduates with honors from Ontario Junior College. When Mascha set sail from the land of her birth, she knew but one person in the United States, her uncle who lived in Oremington, Cal., and through kindness of acquaintance and railroad officials the young girl reached her destination alone. Born of German parents, the girl had been taken to Russia where her father was a teacher in the schools. Shortly after she arrived in Oremington Mascha received word of the death of her father in Russia. She found work in the community and also found time to attend night school at Chaffey Union High School, where she studied the English language.

Mrs. J. S. Armstrong, wife of an Ontario farmer, became interested in the girl's plucky fight, and made it possible for her to devote her full time to gaining an American education. Mascha had not been allowed to take her Russian high-school diploma out of Russia because it bore the picture of the Czar on it.

Mascha, however, found time to work in addition to attending school. This work was done in payment for her room and board. Members of the Chaffey faculty, particularly Dr. Martin E. Hill, principal of Chaffey, have given the girl much encouragement and assistance, and consequently she has completed the work offered at Chaffey Junior College and is ready to graduate with the class this week.

Her plans are to continue her education at the University of Ontario at Berkeley. Mascha has been busy with something else also while attending Chaffey. She has prepared herself to become a naturalized American citizen and when she receives her diploma this week she will also be given her naturalization papers.

Mascha has a crippled sister in Russia who is deeply in debt. Mascha has sent her money, enough money, in fact, earned while working to school, to permit the crippled sister to pay her debts.

Mascha has also taken up the school-teaching work where her father left off.

**Valley Chamber
Invites Porter**

VAN NUYS, June 9.—The San Fernando Valley branch of the Los Angeles Chamber of Commerce will stage its first annual banquet at the Van Nuys Women's clubhouse on the night of the 10th inst.

Major J. C. Porter, probably the principal speaker, according to Raymond Smith, director of the chamber.

Reservations will be limited to 350. Others invited are Senator Frank C. Walker, Assemblyman John C. Crawford, Supervisor Henry W. Wright, Councilman Charles H. Randall, Gordon Whitman, director of the City Planning Commission; Shannon Crandall, president of the Los Angeles Chamber of Commerce; and other prominent members of the United States Chamber of Commerce.

**FORD TALKS ON
SOUTH AMERICA**

REDLANDS, June 9.—Walter Ford, who returned recently from South America where he was citrus expert on a large plantation 600 miles north of Buenos Aires, of which the King of Belgium is part owner, told of the country when he spoke to the members of the American Legion at their monthly meeting last night.

Raymond Canterbury, the commander, presided. Delegates to the State convention were named, including C. B. Brown, Jr., Raymond F. Canterbury, E. M. Wincher, H. H. Ford, Jr., H. E. Gorman and Bruce W. McDonald. Among the alternate delegates are Orville Sherman, Frank Goodshall, P. E. Snyder and James Shea.

Jack Brewster was named finance officer, with Francis J. Richardson and Fred Palmieri as members of the executive committee.

THREE DIE IN ACCIDENT

Fourth Member of Automobile Party Expected to Die at Hospital in India

INDIO, June 9.—Three Coachella Valley women were killed and a fourth is at the point of death in the Coachella Valley Community Hospital here as the result of an accident this morning on the State Highway about ten miles below Indio. Three others, including two babies, received cuts and bruises but not seriously injured.

The dead are Mrs. Herminia Chaves, Mrs. Elvira Moreno and Mrs. Filipa Chaves. Miss Maria Mendez suffered a fractured skull, punctured lung and a fractured leg and is at the hospital, where her death was only a matter of hours.

The accident occurred when Arillo Moreno, who was taking his family and some friends home from the baptism of his youngest child, attempted to pass a car driven by Mr. Ortiz on the narrow pavement. As far as could be told by the marks on the highway and from what Moreno could tell, Ortiz had failed to turn out to let Moreno pass and had forced him off the road into the loose sand.

**SON EMULATES EXAMPLE OF DAD
Pasadena Boy Wins Rifle Championship**

Boy Hits Bullseye
Above, Paul Uphaw junior State rifle champion; below, his father, Claire M. Uphaw, nationally known crack police shot of the Crown City.

PASADENA, June 9.—Paul Uphaw, 12-year-old son of Motorcycle Officer Claire M. Uphaw, became tired of seeing his father depart at regular intervals and return home as regularly with title after title and stock the family silverware with trophies. So young Paul is going after his own honors.

While dad was plunking bullets in the bull's eye to win the State rifle title at the San Luis Obispo police tournament, Paul steadied his rifle and shot. He was the first to hit the bull's eye, and his father in the international rifle team matches—and won the State junior rifle championship.

Paul's score, 538 out of a possible 600, was better than records established by many grown-up experts. He had been shooting since he was 10 years old.

Young Uphaw, figuratively speaking, cut his milk teeth on the butt of his father's service automatic. Almost before he learned to say "choo-choo" or follow the fire engine, he knew the correct position of rapid-fire, free-style shooting.

However, he had never actually shot a gun or pistol until approximately a year ago. Although Paul had been anxious to start training like dad, he was not allowed to start practicing until last year.

Paul Uphaw declared the key should not start shooting until his eyes were strong enough to stand the strain of sighting along a rifle barrel. Now, with one sterling silver medal to set up alongside dad's collection, Paul is out to make up for lost time.

**Mass Meeting
in Border Row**

SAN DIEGO, June 9.—Methods of combating the move to open the Tia Juana border twenty-four hours a day were discussed at a mass meeting called by the Federated Church Brotherhoods of San Diego county this afternoon at 3 o'clock in the Central Christian Church, 901 F street.

The brotherhoods announced they are in possession of information indicating the situation to be critical. Those seeking continuation of the present border hours were advised in a telegram to Wayne Compton, chairman of the civic affairs committee, to stand solidly behind all efforts made in the fight against the proposed revised schedule of hours.

The ordinance was deemed necessary to meet the demands of an aroused public that the animals be put in their place, which was considered by the city habitations. Sleep was disturbed by night, and general health by day and night, declared protesters.

While the ordinance was well on its way to seeming success, a delegation of protesters made an appearance. They were the owners of the animals in question. Their complaint was that the weight of the animals was such that they were on the table, and the farmyard symphonies will continue within the close proximity of the homes.

**ONE DEAD; FIVE HURT
IN CROSSING SMASH**

RIVERSIDE, June 9.—A forty-day quarantine of all dogs within the city limits has been ordered by Dr. J. L. Pomeroy, city and county health officer, following the discovery of seven instances in which persons had been bitten by dogs affected with rabies within the last two weeks. Five were members of one family and all are undergoing the Pasteur treatment. Until the quarantine is lifted dogs are to be kept on their own premises unless vaccinated or muzzled.

BECOMES BANKER AGAIN

NORTH HOLLYWOOD, June 9.—O. E. Jordan, formerly manager here for the Bank of Italy, but who recently resigned to engage in private business, has been appointed manager of the United States National Bank at Glendale Park. He will continue to make his home in North Hollywood.

**GIRL-AND-CIGARETTE
ADS TO BE REMOVED**

SAN FERNANDO, June 9.—All of the billboard advertising in San Fernando, showing the cigarette ads with girls either handling or lighting cigarettes are to be removed, and other tobacco ads less appealing to children are to be substituted. Not long ago the local City Council passed a resolution of protest against the ads and wrote the cigarette company they were objectionable. Local authorities have received a reply stating the advertising will be discontinued, with the intimation that in the future cigarette ads will be contrived in a different manner.

GUARD AGAINST FIRES

SOUTH GATE, June 9.—Fireworks may be sold by patriotic organizations only from stands while in regularly established business houses located in "Class C" buildings, it has been decided by the City Council. In order that fire may not occur again during the Fourth of July celebrations, here, as they did last year, stringent precautions are being made to have extinguishers in readiness at every stand and building where the fireworks are offered for sale. The Council will charge a fee of \$10 a day for each establishment having fireworks for sale.

**BEACH CITY
PIONEERS
AT PICNIC**

Old Residents of Santa Monica Tell Stories of Days Gone By

SANTA MONICA, June 9.—Mrs. Mary B. Sheekles, who settled in this city June 15, 1875, buying a lot at the first land sale, was one of the 200 pioneers who attended today's annual picnic luncheon of the Pioneer Society of Santa Monica, held under the eucalyptus trees of Lincoln Park. Mrs. Sheekles declared she didn't feel "a day over thirty," but for the sake of the pioneer atmosphere of the gathering, was willing to admit she will be 88 years of age next August.

Mrs. Eliza Lopez, oldest daughter of Don Juan Carrillo, whose vast estates formed one of the finest grants in Southern California, exchanged reminiscences with John Bassett, who was conductor on the first Pacific Electric street car to run between Los Angeles and Santa Monica. So this city George B. Dexter, Santa Monica's fire chief in 1888, swapped yarns about fires with Wm. J. Mohr, present fire chief. Police Chief Webb, president of the local Native Sons parlor; Commissioner John Morton, Mayor Michel and other leaders in Santa Monica affairs were present. Picnicking Santa Monica taken when only a few houses dotted the landscape were on exhibit. The outing was arranged by O. G. Tullis, president of the pioneers. Charles A. Tegen, secretary, and a committee of members.

**Unique Meet
of Air-Minded**

SAN DIEGO, June 9.—Probably the first air conference of its kind on record, that of discussing distinctive lines of air travel for commercial and military aircraft flying in the vicinity of San Diego, will be held at the Chamber of Commerce tomorrow afternoon.

The meeting was called by the San Diego Board of Air Control. Among the problems to be discussed will be the proper establishment of flight lines of travel for Maddux and Pickwick passenger planes, and to outline specific courses to be followed by Army, Navy and Marine aircraft so that they will not block the regular routes of the commercial air liners unnecessarily.

It is proposed eventually to establish and enforce regulations through proper legislation which will abolish forever the danger of mid-air collisions between aircraft necessarily roaming the air lanes over the city and its environs.

The ordinance was deemed necessary to meet the demands of an aroused public that the animals be put in their place, which was considered by the city habitations. Sleep was disturbed by night, and general health by day and night, declared protesters.

While the ordinance was well on its way to seeming success, a delegation of protesters made an appearance. They were the owners of the animals in question. Their complaint was that the weight of the animals was such that they were on the table, and the farmyard symphonies will continue within the close proximity of the homes.

**MASONS IN CHARGE AT
JOHNSTON FUNERAL**

PASADENA, June 9.—Funeral services for Allison Johnston, millionaire sportsman and member of the Pasadena Athletic and Country Club, who died yesterday forty-five minutes after he had accidentally fallen from a second-story window of the Hayward Hotel, Los Angeles, will be held at the home of his mother, Mrs. K. A. Johnston, 709 South Pasadena avenue, Tuesday afternoon at 2 o'clock.

Officers of the San Pasquel Masonic Lodge of Pasadena, of which Mr. Johnston was a member, will be in charge of the funeral. The service probably will be held at 2:30 o'clock. Following the ritualistic service, to be read by Walter Kneak lodge secretary, members of the Johnston family will accompany the body to Chicago, Ill., where interment will take place.

**CHURCH SAVED FROM
FINANCIAL RUIN**

TEMPLE CITY, June 9.—Concluding a campaign staged last week to raise funds to save the Temple City Community Church from foreclosure, the "Thanksgiving service" was held today, members and others joining in celebrating the success of the effort.

A meeting called recently by the Temple City Chamber of Commerce and other civic organizations, 150 citizens gave \$100 in cash to the church. The service was held at the church, with Herbert J. Paby, chairman of the fund-raising campaign, as principal speaker. Other notable in the aviation world are expected to attend.

It is expected that a unit of the league will be organized here as a result of the meeting. Hal Forrest, president of the league, will preside. The meeting has been arranged through William Fraunberger, president of the Alhambra Chamber of Commerce, and E. R. Kellogg, Jr., chairman of the chamber's aeronautical committee.

TEACHERS ELECT OFFICERS

HUNTINGTON PARK, June 9.—W. R. Merrill has been elected president of the Teachers' Association of the Union High School; Marie McGinnis, vice-president; Miss Irene Chapman, corresponding secretary; James Albert Moore, treasurer; and Miss Mary A. Hansen, secretary.

**AVIATION BOOSTERS
MEET AT ALHAMBRA**

ALHAMBRA, June 9.—A meeting of aviation enthusiasts, under the auspices of the National Aeronautical League of America, will be held tomorrow night at the Alhambra Athletic Club, with Herbert J. Paby, holder of the solo endurance flight record, as principal speaker. Other notable in the aviation world are expected to attend.

It is expected that a unit of the league will be organized here as a result of the meeting. Hal Forrest, president of the league, will preside. The meeting has been arranged through William Fraunberger, president of the Alhambra Chamber of Commerce, and E. R. Kellogg, Jr., chairman of the chamber's aeronautical committee.

**TELEPHONE BUILDING
PLANNED AT NEWHALL**

NEWHALL, June 9.—Newhall is becoming an important telephone center. To house long-distance equipment necessary for the Los Angeles-San Francisco circuit, a new telephone building is to be erected here at a cost of \$145,000. A lot at Newhall avenue and Oak street has been bought, and telephone engineers are now making plans for construction. The placing of twenty-two miles of conduit between here and North Hollywood in San Fernando Valley is under way.

HOSPITAL CHANGE

NEWHALL, June 9.—Mrs. John Ellis, a graduate nurse, has taken over the management of the Newhall Hospital, succeeding Mr. and Mrs. J. H. Bartlett, former owners, who have departed for Boston. A ward for surgery will be added to the hospital, Mrs. Ellis states.

Chinese Agriculturist Comes Here to Attend Conference at Washington

SAN DIEGO, June 9.—Hong Chang Wong, a county extension agent of the Hawaiian Department of Agriculture, is in San Diego today on his way to Washington, where he will take part in a conference of leaders in that work from all States and Territories in the United States.

Wong interrupted his visit to the national capital to visit for a day in the city and county. Tomorrow he will be in the city and county. Wong interrupted his visit to the national capital to visit for a day in the city and county. Tomorrow he will be in the city and county.

**Police Aroused
by Bold Attempt
to Kidnap Girl**

SANTA ANA, June 9.—Aroused by the extraordinarily bold attempt to abduct Ruby Perry, 13-year-old Talbert school girl, police of Orange county today were vigorously pushing a search for an unidentified fender who was frustrated when the girl escaped his clutches and fled to safety.

The Perry girl, walking home from school at Talbert yesterday afternoon, refused a ride from a motorist, who was driving a large sedan. At her refusal, the man left his car and advanced to seize the girl, but she ran and saved herself by leaping over a fence.

Being outdistanced by the terrified girl, the man gave up pursuit of her, returned to his car and drove rapidly away. Miss Perry, who has been living a mile north of the city, was accompanied by her mother, who was driving a small car, and was heading for her home at 594 Logan street, Santa Ana.

By an excellent description of the man, police authorities expressed determination to spare no pains in running him to earth. Coming closely on the heels of several similar incidents in the county, including that of several days ago when two 6-year-old Santa Ana girls were lured into a stranger's car and driven about the city for half an hour, though without being harmed, the attempt against the Talbert girl has developed a tense feeling in police circles, it is said.

**MAY LOWER CAR
TRACKS AT INGLEWOOD**

INGLEWOOD, June 9.—In response to a request from a committee headed by Sam Green, chairman of the highway committee of the Inglewood Chamber of Commerce, Mayor M. Stevens, representing the Lennox Community Club, and H. A. Holden, editor of the Lennox Tribune, President Kuhns and Chief Engineer Harwood, who had been promised to come here on Tuesday to investigate the possibility of lowering the company's tracks on Hawthorne Boulevard from the Inglewood city limits at Arbor Vitae street to the Hawthorne city limits at One Hundred and Fourteenth street, otherwise known as Bellevue avenue, and including the Lennox area.

A resolution was recently passed unanimously by the Lennox Business Men's Club, expressing its appreciation of the three-minute car service given to the Centinela Valley communities, and asking that in view of the rapidly growing industrial activities in the vicinity of Mines Field, just west of Lennox, that further co-operation toward the improvement of appearances, by the lowering of the tracks, be granted by the company. A copy of the resolution was presented at the conference by the joint Inglewood-Lennox committee.

**PROWLERS TAKE
FOOD AND CLOTHES**

WALNUT PARK, June 9.—During the absence of the Lindquist family from their home at 2607 Cole Place in the evening, some one visited their rear yard where the clothes were hanging and stole all the shirts belonging to Mr. Lindquist and also all the socks with the exception of one pair which were somewhat worn. At about the time this robbery was discovered it was learned that the next-door neighbor's home had been visited and a large amount of the edibles, including two pounds of butter, were stolen from the ice-box.

NEW MASONIC LODGE

Alladena Craftsmen Organize; Home in Consideration Under Consideration

ALTADENA, June 9.—Altadena Masons were today working to be taken in the campaign to secure a permanent home for the Altadena Masonic lodge. The lodge is now in a temporary home at the Pasadena Masonic temple.

Officers of the new Masonic organization include: Cecil L. Whitehead, Master; William J. Stone, Senior Warden; Robert H. Peddicord, Junior Warden; Alvin A. Kemper, Senior Deacon; Henry H. Warner, Junior Deacon; John D. Hays, Senior Steward; Samuel Judd Hughes, Junior Steward; Walter C. C. Huenesager, Secretary; Charles C. Colwell, Treasurer; Nathan Moore, Marshal; S. J. Kane, Chaplain.

Other members were announced as follows: John O. Hatch, H. C. Parker, L. C. Parker, Ira C. Erickson, A. F. Clark, Harry Swift, Leroy Ochoa and Harold A. Webster.

When the necessary work shall have been completed and a lodge room has been constructed, the Altadena Masons will be granted a permanent home.

**NEW WORK FOR
FARM BUREAU**

Forest Protection Considered
First Meeting Held
Fire Prevention
Discussions Led by District Office

SANTA ANA, June 9.—The future of a huge drought-stricken area of Southern California's forest lands, suddenly coming into the spotlight as a way of saving the state's timber, was the subject of a meeting held last night at the Santa Ana Forest Protective Association.

The association, holding its annual meeting at the Santa Ana Hotel, heard several interesting reports of forestry progress in the county. The first report was by John C. Cutler, district office, who said that the county's forest lands were in a state of emergency. He said that the county's forest lands were in a state of emergency. He said that the county's forest lands were in a state of emergency.

**JAPANESE WEAR
SMILING MASKS**

Originals Laugh in Face of Tragedy

Borrow Hidden So Friends Will Not Grieve

Son of Nippon Smiles When White Man Would Weep

BY FRED HOGUE

TOKYO, May 22. (Exclusive)—Why do they laugh?

Now often during three weeks' contact with the Japanese people I asked myself this question: A Japanese table guest at a cafe would rather weep than at any joke which was related during the evening.

A Japanese companion was weeping down a taxi that accident had occurred. He arose and his clothes badly soiled and his face streaked with tears. He looked at me and laughed as though at a joke.

It was in a theater where a tragedy was playing. A young student was playing the part of a hero who had been killed by a broken bottle of water. He was playing the part of a hero who had been killed by a broken bottle of water. He was playing the part of a hero who had been killed by a broken bottle of water.

City Opens First of Its Recreational Centers to Public This Week

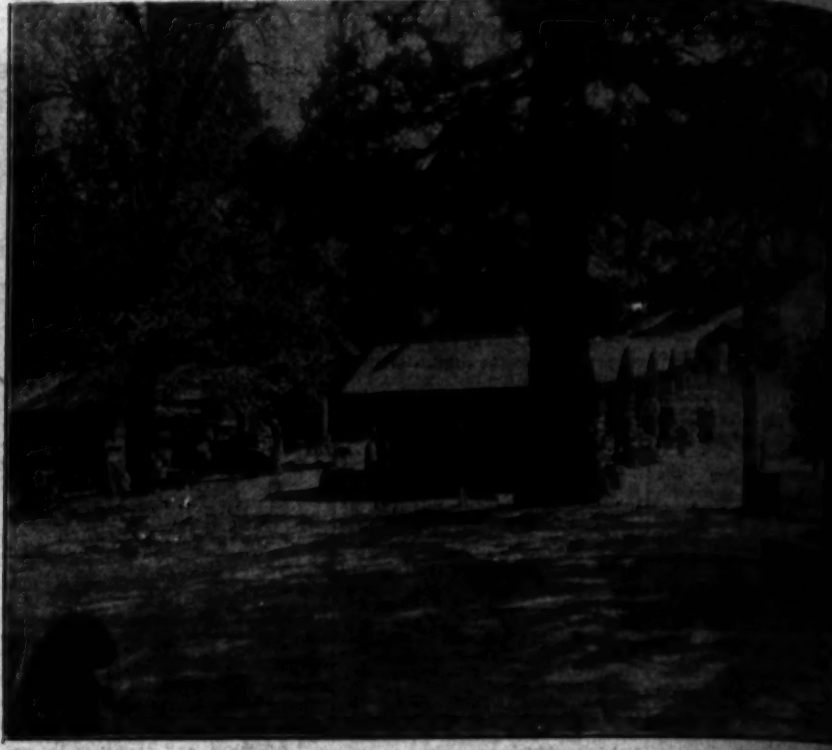

CAMP SEELEY, which will accommodate thousands of citizens during the next three months, opens today, the first of the municipal camps to accept summer vacationists. The camp, located in the San Bernardino Mountains in a beautiful natural setting, is operated under the Playground and Recreation Department of the city government, and offers accommodations at cost. Camp Radford in the Big Bear Lake region will open on Monday of the following week, and Camp High Sierra in the Mammoth Lake country of Mono county, will open two weeks from today. Registrations for the city camps will be received at the offices of the Playground Department in the City Hall throughout the summer. The photos below on this page were taken during the past season at the camps.

HIGH LIGHTS IN HISTORY 1363

The Story of the World War 133—Progress of Enlistments.

by J. CARROLL MANSFIELD

DURING APRIL AND MAY, 1917, A STEADY stream of young Americans, fired with patriotic ardor and stimulated by the nationwide publicity campaign for recruits, poured into the ranks of the regular army and the national guard. Enlistments quickly rose to more than 1,400 a day for the army.

By the end of July, 1917, about a million men had offered themselves for service. Half of them were rejected for failing to pass the physical requirements. Early in August the regular army and the national guard together numbered more than 600,000 men.

JULY 9, PRESIDENT WILSON CALLED OUT those units of the national guard which had not been ordered to duty in March. The entire guard and its reserve was drafted into the federal service under the draft act of May 18, 1917, and in the early fall was sent to training camps, where it was organized into divisions.

DESPITE THE HEARTY RESPONSE OF THE YOUNG MARCH OF AMERICA TO THE PRESIDENT'S APPEAL FOR VOLUNTEERS, AMERICAN MILITARY LEADERS DECLARED FROM THE FIRST THAT VOLUNTARY ENLISTMENT WOULD MEET ONLY QUOTE TO THE DEMANDS OF THE SITUATION.

TO BE A DECIDING FACTOR IN THE WAR AMERICA MUST RAISE NOT ONLY HUNDREDS OF THOUSANDS OF MEN, BUT ALSO—AND RAISE THEM QUICKLY. OUR GENERAL STAFF DECLARED THAT THE QUICKEST AND MOST EFFICIENT WAY TO RAISE A FIGHTING FORCE LARGE ENOUGH TO MEET THE DEMANDS OF THE SERVICE, OR "CONSCRIPTION,"

NEW YORK YANKEES NOTIFY GEORGE BURNS OF RELEASE

NEW YORK, June 9. (Exclusive)—George Burns, pinch hitter and substitute first baseman, who never got much of an opportunity to sub, because of the robust health of Lou Gehrig, today was given ten days' notice of his unconditional release by the New York Yankees. Burns, who once specialized in fashioning two-base hits for the Cleveland Indians and was adjudged the most valuable player in the American League, was acquired last season by the Yankees when they were in a slump. Used as a pinch hitter this year, when the Yankees were bogging, he was no great bargain.

OIL and MINING IN THE EARTH

WET GAS PLANT ENLARGING

Texas Company Adding Six Units to Absorption Project at Kettleman Hills

Within two or three weeks the Kettleman Hills oil field will be equipped to run through a casing-head gas absorption plant 120,000 cubic feet of wet gas per day. This was learned yesterday when it became known that the Texas Company, which has an arrangement to handle wet gas from the Milham Exploration Company's wells, is adding six units to the present plant. Three of these units, according to field reports, will be ready to operate before the end of this week, and three others will be added the following week.

The six new units will each have a capacity of 15,000 cubic feet of gas per day, and the entire installation is expected to be in service before July 1, next. This equipment added to the present plant, it is said, takes care of 120,000 cubic feet of gas per day—much more than the present capacity of Milham's gas plant, the Elliott No. 1. The expectation is that the Texas plant can handle all the gas from Elliott No. 1, and the next completion of the Milham operation.

While nothing definite has been learned as to the attitude of the two companies which have been working with the task of installing a program for curtailing the drilling activity in the Kettleman Hills, the prevailing opinion among operators is that the companies are not going to favor a cessation of drilling.

The main thought seems to be that several wells should be completed in the near future to draw out part of the gas pressure which is menacing the Elliott No. 1, and after this has been done, the various operators should proceed to drill their wells down slowly for the sake of studying the geological formation.

The Kettleman Hills operators believe that Santa Fe springs will soon tap off, and with Leland showing nothing startling, and Seale at low ebb, the only immediate drilling activity in the field is thought to be the completion of the Elliott No. 1, and the completion of the Seale well, which is being drilled by the Milham Exploration Company.

The Milham Exploration Company's well No. 1, on Sec. 24, 25-17, is being drilled by the Milham Exploration Company. It is being drilled by the Milham Exploration Company. It is being drilled by the Milham Exploration Company.

DIP IN WILDCAT FLATTENING OUT

Shift of Structure Viewed as Remarkable

Showings Held Improving in Ventura Project

Interesting Development at Depth Expected

Showings in the Federal Oil Company's Section No. 1 well on the east side of the Ventura-avenue field are said to be growing better as the drill progresses, and the dip of the structure is flattening out remarkably. This is taken as an indication that the well probably is located on the crest of the anticline and that something interesting may be expected at about 8000 feet.

Field reports are to the effect that the company might be able to make a well out of the formation through which it already has passed. The dip of the formation has in the last three weeks changed from a 45-deg. to about a 5-deg. pitch, and that it is now being drilled at a 5-deg. pitch. The company has been drilling at a 5-deg. pitch, and that it is now being drilled at a 5-deg. pitch.

MINE AREA REPORTED REVIVING

Case Mining Said to be Planning Mill on Estate Near Hasseyamps

PRESBOTT (Ariz.) June 9. (Exclusive)—The Hasseyamps section, south of Prescott, is showing signs of revival on a large scale. The Chase Mines, Inc., financed mainly from the main reported about ready to build a 300-ton flotation mill on the Sheldon Superior property and to be preparing for expenditure of \$200,000.

The company now is spending about \$10,000 a month here and recently installed a 120-horsepower Diesel engine. Development is being pushed under management of A. H. Patterson, with notable copper ore found in the Black claim. Milling is to be of complex ore, carrying zinc, silver, lead, zinc and copper. Tunneling is to be advanced through the main ore body and two levels are being driven from the main level. Henry Blachford is secretary and local representative of the company.

Lyons Creek dredging of the New Tanager Division Mining Company is reported to be turning out \$200 in copper and suggests a day, on one shift. Shipments of gold bullion are being made to the San Francisco mint. Plans have been announced for provision of a second unit, to handle 2000 yards a day in three shifts. An electric lighting plant is to be installed.

California operators have taken a lease on Big Bend district placer claims from J. H. Coles of Mayer and have ordered \$50,000 worth of machinery in San Francisco. It is proposed to handle about 500 yards of gravel a day. A steam shovel is being operated on preliminary trenching in the field.

CITY OIL FIELD RESTRICTED

Santa Barbara Palisades Strike to be Handled to Avert Objectionable Features

That the new oil field in the Palisades district, three miles west of Santa Barbara, will be developed in an orderly manner with considerable thought and expense devoted to the matter of preserving the natural beauty of the city of Santa Barbara and its environs is indicated by the fact that the Santa Barbara authorities and the California Oil and Gas Association are working in harmony with these ends in view.

Edwin Higgins, managing director of the association, after conference with city officials and members of the city and county planning commissions has announced that the city of Santa Barbara has placed a prominent Los Angeles oil man on its local committee and the association has appointed a committee of operators to co-operate with the Santa Barbara committee.

COUNCIL CO-OPERATES

That Santa Barbara is confident that the oil industry intends to do its share to protect that community from undesirable features of oil field development is indicated by the fact that the City Council a few days ago adopted a new ordinance which lifted drilling restrictions from 200 to 1000 feet in the vicinity of the discovery well and opened for development an area which many operators believe, is sufficiently large to include all land upon which oil may be found.

The California Oil and Gas Association, through its operators' committee, is undertaking to work out plans whereby Santa Barbara may be given the benefit of all the industry has done at Huntington Beach, Long Beach, Inglewood and other places to guard against fire hazards, water-pollution, spraying of oil on pavements, running of water and mud on highways and other objectionable features of oil field operations.

UPKEEP TAX FOR OIL BUREAU SET

Maintenance Fund Pledged at \$185,000 in 1929

Nine-tenths Levied Against Production Total

Proven Assessable Lands to Bear Other Tenth

According to estimates prepared by the State Mineralists the estimated cost of maintaining the Division of Oil and Gas for the current fiscal year is \$185,000. Therefore in order to run the oil and gas fund to the maximum of \$185,000 allowable by the statute under which the division functions, oil and gas producers and oil-land owners will be subjected to a tax, provided during 1929 and proved oil land as of March 1, 1929.

In levying the assessment, the State Mineralists are assessed against the proved oil land of the State. The remaining nine-tenths is levied against the oil produced and the gas produced and sold, as determined from sworn statements of oil and gas producers. For the purpose of assessment 10,000 cubic feet of gas is considered equal to one barrel of oil.

The total proved oil land of the State is 12,811 acres, an increase during 1928 of 2,000 acres. Of this amount 2,000 acres, being owned by Federal, State and city governments, or for other reasons, is not assessable. The remainder, 10,811 acres, is assessable, and the rate per acre is \$16.77, to yield a total of \$181,000.

The total production of oil in 1928, according to sworn statements, was 211,277,784 barrels, an increase of 1,307,784 barrels over 1927. The total quantity of gas produced and sold was 17,284,000,000 cubic feet. The rate per barrel of oil and per 10,000 cubic feet of gas is \$0.000487, to yield a total of \$185,000.

PRODUCTION OF ORE WILL START SOON

Golden Eagle Mine Near Fallon Completing Road from Mine to Mill

FALLON, (Nev.) June 9. (Exclusive)—Manager Gay H. Beach of the Golden Eagle Mining & Milling Company reports production will start shortly in the Duluth gold property, seventy miles southeast of Fallon. The company is completing a road from mine to mill, and a substantial tonnage of ore is said to be exposed underground and stored on the dumps. Manager Beach says the ore recently developed samples around \$40 per ton. Los Angeles people are chiefly interested in the project.

The Seven Troughs Gold Mines Company has ordered preparations of plans for its proposed mill, the first unit to have a daily capacity of 150 tons. Manager L. A. Friedman states a substantial tonnage of profitable ore has been developed, and that the main tunnel should intersect the Calaveras ore channel at the top of the mine, northward to tap the old Calaveras workings without loss of time. A recent survey indicated the lateral had cut the mineralized formation south of its objective.

REPORT ON SUGARMAN MINE ROSY

Development of Sonora Property Held Showing Good Progress

SONORA, (Cal.) June 10. (Exclusive)—The Sugarmen Mines, Inc., with holdings on the main Mother Lode mineral belt of that section, and whose past production record is said to be in excess of \$100,000 in gold, is reported to be progressing satisfactorily in mine development, and that the twenty-ton daily capacity milling plant is in regular commercial trading, ore ranging in value from \$25 to \$35 in gold to the ton with a 95 per cent recovery of the assay value of the ore.

The amalgamating mill on the ground is said to be treating on a regular basis of high-grade ore from the mine ranging from \$500 to \$150,000 per ton in gold content. The mill product, a gold amalgam, is reported on the ground and consigned direct to the United States mint.

The mine is completely electrical-ly equipped. A drift is being run to the southwest on the 300-foot level to intersect two known airtight reefs at their contact with the quartzite. This is being done, it is asserted, has just been disclosed on this contact. Four such contacts from ten to fifty feet wide have been encountered on this level and it is from this source that regular gold production is coming, and from which more than \$10,000 has been recovered since January of this year.

The property of the company is located on Bald Mountain, is fully equipped, and is provided with excellent transportation facilities. The main haulage road, 12 miles long, has a force of about twenty men on its pay roll.

ROUND MOUNTAIN Well Completed by Shell Union

ROUND MOUNTAIN, June 9. (Exclusive)—The Shell Oil Company has completed its well No. 1 on Sec. 25, 26-28, in the Round Mountain field, at 1925 feet with ten and three-quarter-inch casing set at 1250 feet. It is putting out about 124 barrels of 31-deg. gravity oil per hour, cutting 1.2 per cent. Caldwell No. 1 well on Sec. 7, 26-28, at 1970 feet, with ten and three-quarter-inch casing set at 1400 feet, is being tested for production.

The Honolulu Consolidated Oil Company's No. 1 well is at 800 feet, with thirteen and three-eighths-inch casing set at 285 feet. It is situated on Sec. 24, 28-29.

The Petroleum Securities Company is rigging up its Coffey No. 1 well on Sec. 2, 28-29.

Wildcat Hole in Kings River Drilling Again

LEMORE, June 9. (Exclusive)—Drilling has been resumed at Justice Kierley's wildcat well just west of the Kings River, a few miles northwest of Lemoore. Dr. Kierley asserts that there has been some showing of gas in the well and that the drilling fluid has been thickened to prevent a possible blowout. The well was cased a few weeks ago at the Dudley well on the south shore of Tulare Lake.

The Kierley well is twenty miles from the Kings River, and it is said to be on the edge of what has been designated as the Kettleman structure.

TOM REED PUSHES PROJECT

OATMAN, (Ariz.) June 9. (Exclusive)—The Tom Reed mine from the new 800 level is about 160 feet deep and is being pushed to a new 1000-foot level, on which a station will be out and lateral work started. The last sampling across the ledge was to have shown an average of \$60 gold.

Water is being handled by recent pumping installations, and it is proposed now to pump out the main shaft and work it at 1000 feet for connection with the mine operations, thus securing more economical access to the ore.

Ore from the Sunnyside Consolidated, recently treated in the Tom Reed mill, is reported to have returned \$2 a ton, better by \$20 than a previous shipment.

H. C. Wilcox, a Coast expert, has made examination of the Monoback property of the Empire Gold Mining Company on Silver Creek, north of Oatman. Reports indicate that the levels above the 400 are in milling ore, with ample supply for a projected mill. The property is flooded below the 400-foot depth.

The Yukon Brothers have contracted for development of the Hartman property, now owned by the Oatman Gold Mining and Milling Company, with headquarters in Oatman. A contract is to be run 600 feet northward from the shaft, across the Hammond vein, to reach the main Hartman vein.

L. E. Brown of Walliser is pushing work at the Yukon Sunnyside property, fourteen miles east of Yuma in the Walnut Creek district. The Steady company, which purchased surface machinery, now being received, will start on long haulage tunnel. A concentrator is to be built at the tunnel mouth.

Mines Concern Runs New Plant With Full Crew

TONOPAH, (Nev.) June 9. (Exclusive)—With ore hoisted from the 600, 800 and 700 foot levels, the Trendwell-Yukon Company is operating its new mill at Tybo with a full crew. The plant is milling 350 tons of ore daily, with the product said to average around \$20 to \$25.

About 150 men are on the pay roll. Sufficient ore is reported in sight to assure steady production for several years. Sinking of the shaft has been resumed at 925 feet. Opening of two levels and extensive lateral developments are to follow.

The company expended approximately \$1,250,000 on ore developments and equipment of the mine before producing an ounce of metal. Three large trucks, provided with trailers, are kept in steady operation hauling lead-zinc concentrates to Tonopah for shipment to Kellogg, Idaho.

Operations at Three Belridge Holes Reported

BELRIDGE, June 9. (Exclusive)—The Belridge Oil Company completed its No. 1 well on Sec. 20, 26-31, in the Belridge field at a depth of 718 feet, and is pumping about thirty-five barrels of oil. Eight and one-quarter-inch casing is set at 600 feet.

The Belridge Oil Company's No. 2 well on Sec. 20, 26-31, is in brown shale at 450 feet, and No. 3 on the same section is down 600 feet with ten-inch casing standing cemented at 600 feet.

The Belridge Oil Company's No. 3 well on Sec. 20, 26-31, is in brown shale at 450 feet, and No. 3 on the same section is down 600 feet with ten-inch casing standing cemented at 600 feet.

KERNVILLE DISTRICT GOLD FIND REPORTED

KERNVILLE, June 9. (Exclusive)—Dave Walsh and Hugh Leonard, mining near Isabella, are reported to have a promising gold prospect in the Kernville district. They are on 125 feet on the 200 level.

SHIPPING NEWS

AND ACTIVITIES AT
LOS ANGELES HARBOR

Property at Manhattan Reported as Taking Out Fifteen Tons Daily

MANHATTAN (Nev.) June 10. (Exclusive)—Production of the White Cap Company is now averaging around fifteen tons per day, with the product shipped to the international market, near Salt Lake City, Utah.

Mining has been stopped on the bottom level by caving ground and the management is reported contemplating sinking of a deep central shaft at another point before resuming work on the lower levels. The company is controlled by the Thomas P. O'Brien, who is also dominating the adjacent Nevada Coal Company, operating the Schuchert-Coop properties.

R. A. Montgomery, Los Angeles mining magnate, has become associated with development of an extensive deposit of beryl near the old town of Downeyville. Two deposits have been uncovered, with the ore bodies said to range from 100 to 300 feet in width. It is claimed to be the only beryl deposit of beryl found in America, with the deposits apparently of unlimited extent. The material is said to be of a light color, lighter than aluminum, and to be favored by manufacturers of airplanes and equipment.

Montgomery was among the discoverers of the Johnson, Conrath, Montgomery-Shoshone and other old mines of Nevada, and is associated with William Lofgren of Los Angeles in development of quick silver properties near Lovick.

AMERICAN GAIN IN TRADE CITED

Briton Tells of United States' Advances in Argentina

Dollar's Influence Declared Felt in Every Field

Harbor Board Appointment Causes Speculation

BY WAYNE B. CAVE

Vast trade of the Argentine, heretofore dominated by Great Britain, rapidly is being captured by the United States in the opinion of Capt. Arthur Evans, former member of the British Parliament, who arrived from Buenos Aires yesterday on the globe-trotting Dollar liner President Johnson. Capt. Evans recently completed a three-month survey of the Argentine cattle industry.

"The United States, with its bountiful millions of dollars, has invaded almost every line of endeavor in Argentina," he said. "Banks, public utilities and the prime industries all feel the stimulus from the American pocketbook. The dollar is replacing the pound and trade naturally flows the same way."

He characterized Pacific Coast interest as "exceedingly aggressive," declaring their trade with Latin states has developed ten-fold since the beginning of the World War. Capt. Evans was a member of Parliament until the recent election, his trip precluding his candidacy for re-election. He has letters to Douglas Fairbanks, Chaplin and others, and will remain several weeks. He is stopping at the Ambassador.

SITE PICKED FOR PLACER MINE CAMP

Headquarters of Boulder Dam Gold Company to be at Musgrove Dam

Establishment of a camp at Musgrove dam site on the Colorado River at the mouth of the Grand Canyon on the Arizona side, to serve as headquarters for the Boulder Dam Gold Placers, Inc., is progressing satisfactorily, according to President Mark Musgrove of Los Angeles. Machinery has been ordered for the pumping unit of the gold recovery plant, which will include a dragline scraper outfit, beveler frame and sluice boxes for the handling of the rich gravel bars extending below the mouth of the canyon.

An order has also been placed for the purchase of a thirty-foot launch for use in connection with the company's placer mining operations up and down the river for a distance of approximately twenty miles.

The company has an ambitious program in connection with its mining operations, according to reports. A clubhouse for the use of its miners, and their wives, is to be constructed at once. By using the launch, access will easily be made to the Dixie National Forest on the north rim of the Grand Canyon.

General Adds Two Producers in Kern Field

POSO STATI, June 9. (Exclusive)—The General Petroleum Corporation has just completed two wells in Kern county, one in the Poso Creek field and one in Kern Front. At Poso Creek, the Glide No. 23, situated on Sec. 21, 27-28, is pumping 175 barrels of clean oil a day, with a depth of 182 feet. The well and three-quarter-inch casing is set at 180 feet and eight and five-eighths-inch pipe is set at 187 feet. Young No. 23 well, on Sec. 14, 20-27, was brought in at 262 feet and shut in.

The Superior Oil Company's Glide No. 1, on Sec. 21, 27-28 in the Poso Creek field is putting out about 500 barrels of oil which cuts about 80 per cent.

Four wells are being run in the Poso Creek area and foundations are being laid for two more. The Shell Oil Company's Knapp No. 1 well on Sec. 28, 23-28, is pumping water into the formation. Bottom hole is at 1497 feet. The Glard & Phillips are cleaning out the No. 1 well on Sec. 22, 27-28, at 340 feet.

TRANS-PACIFIC MAIL

LEASE REPORTED OF OLD CHAMPION MINE

NEVADA CITY (Nev.) July 10. (Exclusive)—The Yellow Tiger Consolidated Company, largely controlled by Los Angeles and Colorado people, has leased the old Champion gold mine here, and opened the property to a new lease.

The Champion for many years ranked among the leading gold producers of California, and numerous small shoals of mine ore are said to be exposed in old workings. The Yellow Tiger is operating the Anderson mine near Grantsville, and is said to be earning profits.

SOCIETY

BY JUANA NEAL LEVY

One of the older restaurants of the left bank of the Seine, Laperouse, or rather, its new annex, known as the restaurant des Navigators, was the scene last week of a luncheon in honor of Marshall and Mrs. Hill, which has grown to be an outstanding annual affair.

The luncheon, which was held on the Pacific Coast as the builder of roads.

It will be remembered that the Marshall and his wife were the guests of Mr. Hill a few years ago on a trip around the world. Mr. Hill's participation in the building of the great Columbia Highway was recalled by one of the luncheon speakers.

Amos Tuck French, retired banker, and one-time vice-president of the Northern Pacific Railway, Mr. Hill, he later appeared before the Oregon Legislature to plead for the road and later took the Legislature in a body on a special train through the country through which the road would run to his picturesque home at Mary Hill, Wash.

Mrs. Louis Hill, wife of the railway magnate, and a frequent visitor to Europe, now is in Montreux, Switzerland, for an extended stay. She is accompanied by Miss Maud Hill and Miss Georgiana Stedman, who arrived from the United States, and Mrs. Dorothy Barrows Hill and her daughter, Miss Dorothy Hill of Pasadena, still another of the Hills in Europe is Jerome Hill, who is touring Burgundy with a party of friends.

After several days in Venice, Horace Baker, general manager of the Exposition Car Company, has arrived in Paris and is stopping at the Hotel Plaza-Athenes. Mr. Baker has been connected with railroads for many years, holding various offices as far back as 1881. In 1905 he became connected with the Havana, Rantoul and Eastern Railway, as treasurer and paymaster, and since then he has held various positions with the St. Louis Iron Mountain and Southern, the Cincinnati, New Orleans and Texas, and the Alabama Great Southern and other lines.

After a visit in the south of France, Mr. and Mrs. Walter Sumner have arrived in Paris and are stopping at the Hotel Plaza-Athenes. Mr. Sumner, who is a director of the Southern Railway Company, started his public career by establishing Case, Pomroy & Co., an investment trust company, patterned after the British plan, rather than the American. This company later took over the controlling interest in the Southern Railway.

Among other recent arrivals in Paris is Myron Charles Taylor, director of the New York Central Railway.

Mrs. Charles J. Boehman, Miss Sue Boehman and Mrs. J. F. Chase have crossed to Europe aboard the Atlantic Transport liner Minneapolis from New York.

Mr. and Mrs. R. Knox Roberts are in Aix-la-Bains, France, for the cure season there. They are stopping at the Hotel Splendide-Royal.

Shelley Jackson, prominent banker of Chicago, and Mrs. Jackson have arrived in Paris from Switzerland, after a prolonged stay at the Hotel Victoria in Lausanne, where they were visiting friends. They are at the Grand Hotel de la Ville.

Mr. and Mrs. Fred D. Adley of San Diego, who have been traveling in Germany, were recent visitors to Berlin, where they registered at the Hotel Bristol.

J. P. McQuay was a passenger aboard the French liner Ile de France on its last trip from New York to Havre. Mr. and Mrs. Edward Hayden of Hollywood also aboard.

Mr. and Mrs. J. S. Steinhardt have crossed to Europe aboard the Hamburg-America liner Hamburg. Mr. and Mrs. John Binkley of San Diego have arrived in Paris after a trip around the world. Their son, Master Jack Binkley, is attending the Lycée Michelet here. They plan to go to London for a fortnight's visit, previous to sailing for New York.

Of Interest to Women.

HEALTH AND DIET

By Dr. Frank Mc Coy

Dr. Mc Coy will answer personal questions on health and diet, addressed to him care of the Los Angeles Times. Letters stamped, addressed outside for reply.

AVOIDING TETANUS
Many correspondents write to me asking for advice about the treatment of tetanus or lockjaw. Unfortunately, most of these letters come to me too late, as there is little chance of helping a victim after tetanus has fully developed.

Everyone should be informed that it is always possible to prevent tetanus, but difficult to bring about a cure after it has developed. It is estimated that fully two-thirds of the cases affected die. Some of these have had the tetanus antitoxin treatment, and others have not. Many physicians advocate this method of treatment, but I believe it is a waste of money, and claim that many deaths are actually caused by the effect of the antitoxin treatment.

The tetanus bacillus grows best in deep wounds having but a small exterior opening, since the germ cannot grow in the open air where so much oxygen is present. The tetanus bacillus is frequently found in soil manure, and even dust, and the living bacillus occurs in the intestines of many humans and herbivorous animals.

It is undoubtedly true that the bacillus is often found without the disease of tetanus or lockjaw developing. Very little change in the appearance takes place in the tissues from the action of this germ, but it must be remembered that the toxin produced is nineteen times as poisonous as dried cobra venom, and it causes a violent contraction of the muscles of the body, especially those of the jaw, the back, the throat and the neck. The muscles of the back may be so tightly drawn during a spasm that the affected one will be so contracted backwards that the heels will actually touch the head.

Twenty-five per cent of cases occur under one year of age, so that it is especially important for parents to protect children against this virulent infection. It is possible that the symptoms of tetanus may not occur until as late as twenty days after the infection has taken place.

There is just one important point on this subject which I want my readers to remember. Every wound or abrasion of the skin should be thoroughly cleaned and sterilized immediately after it occurs. The parts should be washed with sterilized water and either peroxide of hydrogen, mercurochrome, or some other antiseptic used directly on the wound. If disinfection is taken, it will be impossible for tetanus to develop, and if everyone followed these instructions.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

WATERMELON SHERBET
Carefully remove the red part from a watermelon, save the juice, and press the pulp through a sieve. Add the juice, and mix with two teaspoonsful of finely chopped parsley, one-quarter of a teaspoonful of powdered sage, one tablespoonful of lemon juice, two eggs, one and a half teaspoonful of thyme, one teaspoonful of grated lemon rind, one-quarter of a teaspoonful of nutmeg, and a seasoning of salt and paprika, press into a mold, all the mold with gravy and bake for one hour in a moderate oven; let cool in the mold, turn out on a cold platter, garnish with ripe olives, slices of tomato, and branches of parsley.

SPANISH SHERRED EGGS
Two cupsful of strained tomatoes, one-fourth of a cupful of quick tapioca, one teaspoonful of chopped onion, one tablespoonful of chopped parsley, a seasoning of salt and pepper, one-half a cupful of grated cheese.

Leviathan on his last trip to pass the summer in Europe. Daniel Whelan has arrived in Paris from Vienna.

HOUSEHOLD SUGGESTIONS
Snaps
When putting on snap fasteners on dark clothing, sew one-half of the fastener securely, then mark the ball in the center of the fastener with chalk. Press against the goods on the other side and the chalk marks will show where the other half of the fastener should be sewn.

Sterile Cotton
When there are kiddies in the family (and it isn't always the kiddies) it is hard to keep the box of absorbent cotton clean and sterile. The cotton is packed out in haste and is left out of its wrappings and forgotten. A Mason jar is nice to hold absorbent cotton and stands good chance of being securely closed after using.

What's What
Never leave medicine or beverages uncovered in a sick room. Buy canned goods with clean wrappings and refuse any can that seems bulgy. Peroxide of hydrogen will remove perfume stains from linen bureau scarfs. Empty the carpet sweeper on a

YOUR BABY AND MINE

By Mrs. Edith Hill

Mrs. Edith Hill is glad to share all questions pertaining to babies and children, will accept and answer them, and forward them to this department. Letters should be addressed to her care, Box 100, 100 North Broadway, Los Angeles, California. Please send a return address, and if possible, a photograph of the baby.

QUESTIONS AND ANSWERS
Trouble With Fingers
Question: G. M. asks: Will you tell me a remedy for my fingers? They get extremely cold, then they start swelling first in the joints, then working up to the fingertips. The symptoms start by small lumps forming under the skin, then becoming red. My touching anything cold my fingers get blue and numb. Would like to find a cure, as I have to work for a living.

Answer: Possibly you are having some kind of functional heart trouble. Your physician should be able to tell you whether my guess is correct. Send for my special articles on heart derangements and poor circulation.

Q: J. O. H. writes: I am 50 years of age and have had eczema for many years. I should like to know if there is a sanitarium that you would advise for a few weeks or longer if satisfactory?

A: Take a fast for a few days and follow the menu I give you each week in this column. Any ordinary case of eczema can be cured by the use of a correctly balanced diet. No sanitarium treatment is necessary if you will follow the proper regime at home.

Sleeplessness
Q: Mrs. J. K. writes: I have trouble in sleeping at night. Will you please tell me the cause of this? I cannot have a dreamy feeling in my head upon arising.

A: Insomnia is generally produced by overeating at the evening meal, or using foods which make stomach gas. This would also cause biliousness, with the resultant dizzy spells which you experience each morning.

Thin, But Healthy
Q: D. H. writes: I am 57 years of age, doing light inside work. Have been twenty pounds underweight for the past thirty years, but never sick—always on the job and full of pep. I eat two meals a day. Do you think I should eat more to try to gain weight?

A: Feeling as you do, I think it would be folly for you to try to gain weight. Your chances for reaching a ripe old age are much better if your weight is kept slightly under the figure which is usually given in weight tables. If you will plan your meals so as to get all of the different food elements your body requires, you need never be afraid of eating too little. The danger is always in eating too much.

LEMON PIE
One slice of bread, about one and a fourth inches thick and three and one-half inches square, three tablespoonfuls of butter, one cupful of boiling water, one cupful of sugar, the grated rind of one lemon, and three tablespoonfuls of lemon juice, two eggs, one and a half teaspoonfuls of cornstarch, pour the boiling water over the bread, let stand until the bread is soft, adding butter at the same time; add the sugar, and cornstarch, and beat well, add the egg yolks, well beaten to the mixture, the lemon rind and juice, pour into a pastry-lined dish, place in the oven and bake until the mixture is set, cover with a meringue, made from the egg whites, return to the oven and brown slowly.

Mrs. Wyman does not reply to letters, but requests for recipes are answered. The department is published every Friday. All reproductions reserved by A. L. Wyman.

damp newspaper to prevent the dust from scattering. Wax the bottoms of your rockers and they will not make marks on the hardwood floors.

A Little Kerosene
When the windows are very soiled and particularly hopeless looking, add a little kerosene to the water for washing. It will cut the dirt and clean them in very short order.

A Bite to Eat
A tin can box is such a comfort for the working girl who does a little housekeeping in her own room. It will hold bread, cereal, crackers, and various things that must be kept fresh and safe from mice.

A Good Fellow
A wise woman knows that her husband wants companionship and attention along with good meals and a clean house and this woman does not ruin her hubby's holidays and Sundays with unnecessary work that could well keep until the following day when he is at home.

The Care of Silk
Never wring silk dry. Never dry silk in the sunshine. Never iron silk with a very hot iron. Never allow silken things to become soiled before washing. Never rub soap directly on silk. Make a suds of white flakes and work the silk up and down in them until the article is clean.
